Style you can depend on

From hospitality to healthcare, DuPont™ Tedlar™ Wallcoverings provide durable design for high-traffic areas in a variety of styles, colors and textures guaranteed to leave a lasting impression.

By collaborating with industry-leading designers and architects early in the creative process, Tedlar™ Wallcoverings can offer designs, colors and patterns that are both varied and on-trend, ensuring that your spaces are always aesthetically pleasing.

How clean and comfortable should look

Whatever space they grace, Tedlar™ Wallcoverings make a strong – and lasting – first impression. The Tedlar™ surface delivers unparalleled performance in even the most rigorous environments through proven durability and stain and scuff resistance.

Confidence you can count on

All collections are GREENGUARD Gold certified for improved indoor air quality. Our wallcoverings also are Health Product Declaration® verified. They have been proven for more than 30 years of use, which means you can feel confident that your design will look flawless many years later.

All of our products are made in America and kept in stock. So whenever you need material, we have you covered.

Stain proof and worry free

Tedlar™ Wallcoverings are protected by a film that provides an impervious barrier against stains, making it easy to wipe away everything from permanent marker to betadine.

Cleaners & bleach

Tedlar® film can stand up to the harshest industrial cleaning products, including bleach and alcohol-based solvents. It is even unaffected by strong acids, bases and acetone.

Fire & smoke

Tedlar® film has low smoke ratings and does not readily burn or support combustion, making it one of the safest materials designed for interiors.

Mold, mildew & bacteria

Third-party laboratory testing has proven that Tedlar® film does not support or provide nutrients to assist in mold and bacteria growth, including *E. coli*.

Your vision, our performance

We work closely with our clients to provide custom samples within 1-2 weeks. And just because it is custom doesn't mean you have to wait to get your material. We manufacture custom orders within 4-6 weeks.
