

Hardened Wood Flooring Wood Character & Grading

Floor grading defines the visual character of wood through its natural variation, grain, knots, and markings. From refined and uniform to richly expressive, each grade offers a distinct design aesthetic to complement the character of your space.

Select

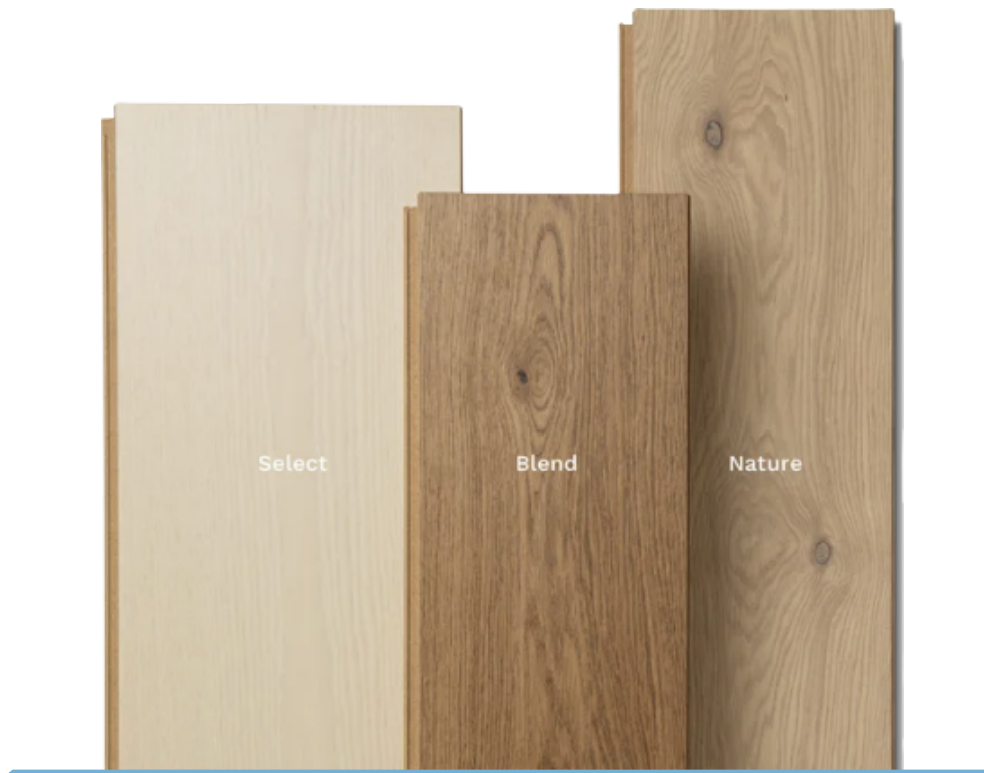

Select Grade offers a clean, refined aesthetic with subtle color variation and fewer prominent knots. With minimal natural markings, the flooring creates a calm, balanced appearance that feels sophisticated and timeless. Its understated beauty makes Select Grade an ideal choice for modern and contemporary interiors.

Blend

Blend Grade combines the refined appearance of Select with the natural character of Nature. Subtle grain variation, occasional knots, and organic markings add warmth and visual depth while maintaining a clean, balanced aesthetic. This versatile grade offers a sophisticated blend of consistency and character, making it well suited for modern commercial interiors seeking a polished yet natural look.

Nature

Nature Grade highlights the authentic character and natural beauty of wood. Distinctive grain patterns, knots, character markings, and color variation create warmth, depth, and visual interest throughout the floor. Rich in natural expression yet timeless in appeal, Nature Grade is a versatile choice for commercial interiors seeking an inviting, organic aesthetic with character.
